

# FIBERMASTER CARPET CARE

# FIBERMASTER CARPET CARE

## The Systematic Game Plan for Maintaining Carpets

**STEP 1  
PLAN YOUR  
PROGRAM**

### SPIN CLEAN PRODUCTS

**Method 1:  
Spin Cleaning\***

- Fibermaster All 'N One
- PC113 Pre-Spray & Spot Remover

Moisten the pad and change pads frequently.

**Method 2:  
Light Extraction Cleaning**

- Fibermaster All 'N One
- PC113 Pre-Spray & Spot Remover
- Odor Neutralizer
- Fibermaster Spotters
- Fibermaster Carpet Rinse Agent
- PC114 Carpet Rinse Agent

### PRE-SPRAY PRODUCTS

- Pre-spray to loosen the soil.
- Fibermaster All 'N One
- PC113 Pre-Spray & Spot Remover

Clean high traffic areas regularly with one or more methods.

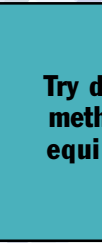

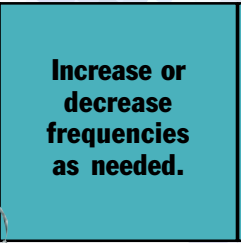

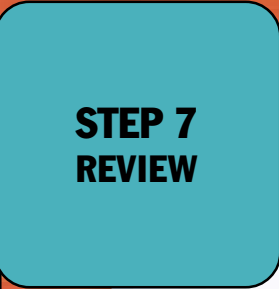

Use defoamer in the recovery tank.

### STEP 7 REVIEW

Always review your plan for continued success.

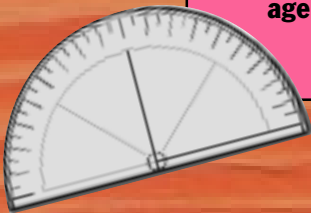

Increase or decrease frequencies as needed.

Try different methods and equipment.

### STEP 5 INTERIM MAINTENANCE

Use a dryer on the spot to prevent wicking.

Rinse-extract using a rinse agent.

Rotary shampoo the area.\*

Pre-spray to loosen the soil.

### SPOT CLEANING PRODUCTS

Flush with a rinse agent and portable extractor.

Perform daily to keep appearance at a high level and ease removal.

- PC113 Pre-Spray & Spot Remover
- Fibermaster Spotters
- PC114 Carpet Rinse Agent
- Fibermaster Carpet Rinse Agent

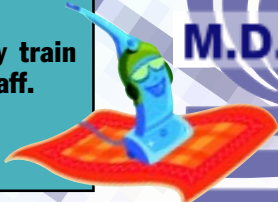

### STEP 4 SPOT CLEANING

L UR M	Set Realistic Goals	Consider: carpet types, traffic, and expectations of quality.	Consider: staffing and equipment needs.	Dehumidifiers help prevent mold growth and wicking and speed dry time.	Entrance matting, as your first line of defense, can trap up to 80% of soil	<b>STEP 2 STAFF TRAINING</b> 
--------------	---------------------------	---	--	--	--	---

**EXTRACTION PRODUCTS**

Fibermaster Sanitizer Shampoo Fibermaster Odor Counteractant Fibermaster Exit Fibermaster Defoamer Fibermaster Extraction Cleaner Fibermaster 2 Extraction Cleaner		Use defoamer in the recovery tank.	Mix a deodorizer with the extraction shampoo to deodorize.
---	---	--	---

Different methods or equipment.	Continually train your staff. 
---------------------------------------	--

**Method 3:  
Rotary  
Shampooing\***

- Fibermaster Dry Foam Shampoo
- Fibermaster Sanitizer Shampoo

When interim  
maintenance no  
longer works,  
proceed to next  
step.

**ROTARY SHAMPOO  
PRODUCTS**

**TRAIN TO WIN**  
MD Stetson's  
"Catch the  
Training"  
Program can  
help.

Training  
materials and  
support programs  
are available.

**STEP 3  
DAILY  
VACUUMING**

Removes granule  
dirt and soil.

Prevents  
premature wear  
and traffic  
patterns.

Select the proper  
vac for the  
application.

**RESTORATIVE MAINTENANCE  
PRODUCTS**

- Fibermaster All 'N One
- PC113 Pre-Spray & Spot Remover
- Fibermaster Dry Foam Shampoo
- PC114 Carpet Rinse Agent
- Fibermaster Carpet Rinse Agent
- Fibermaster Sanitizer Shampoo

**STEP 6  
RESTORATIVE  
MAINTENANCE**

	For small open areas, use upright vacs.		For large open areas and hallways, use wide area vacs or sweepers.		For congested areas, use backpacks or canister vacs.	Select the proper vac for the application.
--	---	---	--	--	---	--

\* Check with carpet manufacturer prior to rotary shampooing or spin cleaning.

# CARPET CLEANERS

## Fibermaster Dry Foam Shampoo

A concentrated, dry-foam shampoo for use with rotary and foam-type equipment. Neutral, nontoxic, nonflammable and biodegradable. Safe and effective on carpets and upholstery, all fibers and colors. Generates dry foam that traps dirt and soil, lifting it to the surface for easy vacuum pickup. Wetting of carpet is kept to a minimum, avoiding backing wet-out and allowing traffic resumption a few hours after cleaning. No rinse necessary, foam crystallizes and is removed with vacuuming. Specially formulated not to remove stain resistance treatments. Use dilution: 1:32. 4 gallons per case.

## Fibermaster Extraction Shampoo

A highly effective carpet cleaner for all portable extraction equipment. Removes soils and stains quickly and efficiently. Fibermaster Extraction Shampoo is fortified with soil suspending agents. Low foam and safe for all types of colorfast carpeting. Use on carpets and rugs made of wool, synthetics and blends. Specially formulated not to remove stain resistance treatments. Use dilution 1:256. 4 gallons per case.

## Fibermaster Carpet Sanitizer Shampoo

A low-foaming, carpet shampoo formulated for use with extraction and carpet steam cleaning equipment. Fortified with odor counteractants to neutralize malodors. Removes greasy soil and will not leave a residue to promote resoiling. Contains "twin chain" quaternary ammonium compounds that reduce gram-negative and gram-positive odor-forming bacteria. Helps prevent mold growth. Use with portable extractors and rotary shampooers Recommended for use on washable synthetic fibers. EPA Registered. Use dilution: 1-64. 4 gallons/case.

## Product Central #112: Extraction Carpet Cleaner\*

A highly effective carpet cleaner, fortified with soil suspending agents. Use in all types of extractors. PC #112 removes soil and stains quickly and efficiently. Low foam and safe pH for all types of colorfast carpets and rugs made of wool, synthetics and blends. Specially formulated not to remove stain resistance treatments. Dispenses automatically. 4 half-gallon cartridges per case.

# SPECIALTY PRODUCTS

## Odor Exit

A highly concentrated, liquid deodorant and odor counteractant. Filters out bad odors, replacing them with a pleasant fresh scent. Use as a deodorizer to freshen air, carpets, upholstery or drapes, and as an additive in extractors, pre-sprays and shampoos. Effectively removes odors caused by food, smoke, vomit, urine, pets and mildew. A nontoxic and nonstaining formula. Use dilution: 1-4 ounces. 4 gallons per case.

## Fibermaster Defoamer

Add to the recovery tank of extraction equipment to eliminate foam buildup that can interfere with the extraction operation. The use of Fibermaster™ Defoamer in the recovery tank will result in greater equipment efficiency. Economical to use. Requires only a small amount for total foam control. Use dilution: as needed. 4 gallons per case.

## Product Central #111: Odor Counteractant\*

Highly concentrated liquid deodorant and odor counteractant. Filters out bad odors, replacing them with a pleasant fresh scent. Use as a deodorizer to freshen air, carpets, upholstery or drapes, and as an additive in extractors, pre-sprays and shampoos. Effectively removes odors caused by food, smoke, vomit, urine, pets and mildew. Nontoxic and nonstaining. Dispenses automatically. 4 half-gallon cartridges per case.

## Product Central #114: Carpet Rinse Agent\*

Use with all types of extractors to flush out detergent and soil residues from carpets. Use in conjunction with a pre-spray for rinse extraction techniques. Good for spot removal rinse and flushing. Low pH. Dispenses automatically. 4 half-gallon cartridges per case.

## Fibermaster Carpet Rinse Agent

Flush out detergent and soil residues from carpets with all types of extractors. Use in conjunction with a pre-spray for rinse extraction techniques. Good for spot removal rinse and flushing. Low pH. Use dilution: 1:256. 4 gallons per case.

CENTRAL

The Product Central Dispensing System features two unique compact units that safely and accurately dispense a full line of cleaning chemicals. Please see separate information.

*Safe and accurate dispensing every time.*

# SPOTTERS AND PRE-SPRAYS

## Fibermaster All 'N One

Carpet pretreatment, bonnet cleaner and general spotter, in one product. Use diluted to pretreat heavily soiled areas prior to cleaning. Use as a general spotter to remove most common-type stains. Also use as an interim carpet (bonnet) cleaner for use during the time between extraction or dry-foam shampooing. For use in continuous traffic areas, dries in 30-45 minutes without leaving a residue. Specially formulated not to remove stain resistance treatments. Safe for all colorfast carpet types. Use dilution: 1:3 to 1:10, depending on the application. 4 gallons per case.

## Fibermaster Spot Remover

This nontoxic, ready-to-use, all-purpose carpet spotter and grease cutter is effective for all kinds of soil. Removes most soils and stains from carpets, upholstery and hard surfaces. Apply with sprayer, agitate and blot away. Rinse when stain is gone. 12 quarts per case.

## Product Central #113: Pre-Spray & Spot Remover\*

Multi-use to pretreat heavily soiled areas prior to shampooing or extraction cleaning; remove most common-type stains; and interim (bonnet) clean between extractions or dry foam shampoos. For use in continuous traffic areas, dries within 30-45 minutes and leaves no residue. Safe for all colorfast carpet types. Won't remove stain resistance treatments. Dispenses automatically for pre-spray and spin cleaning, and for spot removal. 4 half-gallon cartridges per case.

## Fibermaster Coffee Remover

Quickly loosens and removes stubborn coffee stains. May be used as a bonnet pre-spray or spotter with steam release method. Apply with sprayer to soiled area of carpet or upholstery, use tamping brush to agitate. Allow 2 minutes before extracting. Repeat as needed.

## Fibermaster Gum Remover

Helps remove chewing gum, candle wax, putty and other gummy substances from surfaces. Quickly freezes the substance to approximately -40°F so you can remove it fast. No staining or chemical residue. Contains no chemicals that will reduce the ozone in the upper atmosphere. Ready-to-use. 12-ounce aerosol.

## Fibermaster Grease & Tar Remover

Removes oil, grease and tar from carpets by dissolving, holding in suspension and flushing out with water. Can be diluted with either water or solvent to make a pre-spray for asphalt footprints. Apply with sprayer or sponge, do not oversaturate or the backing may be damaged. Allow approximately five minutes before removing.

\* All Product Central products are made for use with the Product Central Dispensing System.
